Introduction

The ARHE/ARS/AAPG Annual Conference is the only conference that solely supports collegiate recovery programs, recovery high schools, and alternative peer groups across the US, Canada, and the UK. In 2018, the three organizations combined their annual conferences, though 2025 will be the 24th year for the ARS Conference, the 16th year for the ARHE Conference, and the 9th year for the AAPG Conference. Our programs have the capability to serve individuals as they progress from adolescence through adulthood. Recognizing that we were better together, we joined forces in 2018 and built a unique conference that is the highlight of many people's year.

Each year we strive to host an event that is more than just your average professional conference. It is often described as "part professional development conference, part recovery convention, and part reunion." In addition to hosting an average of 60-80 educational sessions with continuing education, the conference also includes multiple recovery meetings each day, an array of networking and entertainment events, and local excursions.

Attendee Information

Our conference attendees come from across the US, Canada, and the UK. They largely represent collegiate recovery professionals, recovery high school faculty and staff, and alternative peer group staff. We also have representation from students, university officials, State and Federal government, community organizations, and treatment agencies. Since 2018, our conference has averaged 500-600 attendees each year.

Sponsorship Opportunities

Why sponsor this conference?

- Gain visibility and connect with both the recovery community, higher education professionals, and recovery high school or alternative peer group staff who are all dedicated to supporting students, whether at secondary or post-secondary institutions.
- Make a positive impact by investing in the future of students and supporting the programs that help them change the trajectory of their lives through addiction recovery and education: ARHE/ARS/APG support the dissemination of innovative and leading research, resource development for both developing and established programs, technical support, and ongoing professional development that directly supports these programs.
- Collect valuable leads and contact information from students and professionals at institutions internationally (attendee contact lists shared with Bronze sponsors and higher).
- Benefit from comprehensive marketing packages to increase your exposure to thousands of newsletter, website, and social media followers, in addition to in-person attendees.
- Your sponsorship directly aligns your organization's mission with the mission of the conference: supporting students in recovery, and the programs and staff who support them!
- Opportunity to attend 3 conferences in 1, with content from the Association of Recovery in Higher Education, Association of Recovery Schools, and Alternative Peer Groups!
- Experience 3.5 days of exciting presentations, research, recovery meetings, and entertainment options!
- Earn CE credits from sessions (*Exact number to be determined after sessions are selected*)

Please note that any items that are not sponsored may not be provided at the conference.
